TO: MEDIA OUTLETS
FROM: MARK BECKMAN, EXECUTIVE DIRECTOR
RE: MHSA SELECTS VARVEE.COM AS NEW STATISTICS SERVICE

****FOR IMMEDIATE RELEASE****

With a new school year fast approaching, the Montana High School Athletic Association has entered into a partnership with VarVee, Inc. to gather statistics for all MHSA sanctioned sports beginning the 2010-11 academic year.

Through either website (www.varvee.com or www.mhsa.org) the service will be accessible to MHSA member schools and greatly simplify the process of recording, tabulating, publishing, and accessing comprehensive sports statistics and, in turn, making it available to coaches, players, news media and fans.

Mark Beckman, Executive Director of the MHSA, said, "Member schools recently endorsed the efforts of the MHSA to enter an agreement with a statistics service to facilitate the flow of information and statistics involving Association activities. After examining a variety of services, MHSA opted to sign with Varvee.com effective with the current school year."

"This opportunity is a privilege for our organization," commented Stephen Cunningham, Chief Executive Officer, VarVee, Inc. "We are committed to working with the MHSA to provide the best information that has ever been made available about athletes, teams, stats, and results. Our mission is to celebrate high school athletics."

Beginning with the fall sports, VarVee.com will assist participating MHSA schools in recording statistical information in basketball, football, golf, soccer, softball, swimming, tennis, track and field, volleyball and wrestling. The MHSA and Varvee.com will provide weekly, in-season updates of state statistical leaders in several sports.

VarVee, Inc. will provide every member school with instructions on using the website and system and also provide individualized support and technical assistance throughout the school year. Additionally, student-athletes will now be able to create their own personal athletic profiles and link their results from multiple sports and seasons. Everyone will be able to sign up for alerts for their favorite team, sport or athlete.

About VarVee, Inc.

VarVee, Inc., located in Denver, CO, provides software as a service (SaaS) to make it easier for coaches to record game statistics and automatically distribute box scores to media outlets and supporters across 20 high school sports. VarVee was founded in August 2007 with the concept of embracing the coaches' challenge of collecting and reporting game time statistics. From inception, VarVee beta tested their software approach successfully across multiple sports and officially launched in Colorado in March 2009. Now they are expanding to many other markets.
